1. Kammi Henriksen
Thrombotic Microangiopathy (TMA) in the Setting of Pauci-Immune Crescentic Glomerulonephritis (GN)

Wednesday Afternoon, Poster 242

2. Jocelyn Moore
#1 Poster
“Immunophenotyping Interstitial Inflammatory Cells in Acute Rejection”
Poster Session VI – Wednesday afternoon Poster #222

#2 Platform
“The Presence of P311 in Lymphangioleiomyomatosis Lesions May Link TGFBeta1 Expression with the mTOR Pathway.”
Platform Presentation Section F at 2:15 pm on Tuesday afternoon.

3. Jennifer Pogoriler

Title: Effect of Prostacyclin Treatment on Lesions of Pulmonary Arterial Hypertension
MONDAY MORNING – Poster Number 7

Title: Differential Expression of Proteins Regulating Lipogenesis in Liposarcoma
Poster Session II – Monday Afternoon – Poster Number 12

4. Jie Song

1. Title: Podoplanin (D2–40) Expression in Mesenchymal and Clear Cell Chondrosarcoma
Type: Poster, STOWELL–ORBISON competition
Time: March 22, MONDAY MORNING – Poster Number 11

2. Title: The Outcome of USCAP Abstracts
Type: Poster
Time: March 23, Tuesday Morning – Poster Number 106

3. Title: Building User Friendly, Searchable Databases for Meeting Abstracts
Type: Poster
Time: March 22, Monday Afternoon – Poster Number 171
5. David McClintock

Poster #1: Use of Web-Based, High Definition Autopsy Videos To Improve Resident Training and Medical Student Teaching, Poster Session III – Tuesday Morning – Poster Number 107

Poster #2: Use of Virtual Microscopy and Online Lecture Recording To Improve Preclinical Teaching; STOWELL–ORBISON/SURGICAL PATHOLOGY/AUTOPSY AWARD POSTER SESSION, MONDAY MORNING – Poster Number 77

6. Maria Westerhoff

Poster 1: Title: Drug-Induced Ductopenia: Natural History and p16INK4 Expression Poster Session II – Monday Afternoon – Poster Number 180

Poster 2. Title: Spectrum of Disease in Liver Biopsies from Patients with Neonatal Jaundice Poster Session II – Monday Afternoon – Poster Number 172

7. Jiankun Tong

Poster Title: CD8 T cells promote the resolution of prolonged airway inflammation in a murine model of asthma.

Monday morning. Poster No: 243.

8. Ling Gao

Title: Mutations in the tsc2 Gene Do Not Always Play a Role in the Pathogenesis of Sporadic Lymphangioleiomyomatosis Poster Session IV – Tuesday Afternoon – Poster Number 260 Time: 12:30 – 1:00 p.m

9. Mojgan Hosseini

Title: Clear cell cysts in acquired cystic disease represent an early lesion of clear cell carcinoma.

Poster, Tuesday, 3/20/10, 7:30-9 AM, poster session 3, poster # 159

10. Mir Alikhan

a. Poster presentation
   Title: "A Limited Number of Sentinel Nodes Accurately Stages the Axilla"
   It’s scheduled to be presented on Wednesday morning, March 24th, poster number is 42
11. Silver Daniel

Poster presentation
"The Expression of Serum/Glucocorticoid Regulated Kinase 1 (SGK1) and Glucocorticoid Receptor (GR) in Prostatic Tissue"
Wednesday morning, poster #97

A. Online Poster2View presentation
   Title: "Temporal Assessment of Host Response to Acellular Dermal Matrices"
   Available throughout the year (ie. no presentation)

12. Adriana Acurio

Title: Hepatocyte Growth Factor/Scatter Factor and its Receptor c-Met modulates E-Cadherin expression in Matrix-producing breast carcinomas.
Poster 19, Wednesday afternoon.

13. Nicole Cipriani

1) Poster Title: Neoangiogenesis in Pulmonary Adenocarcinoma: Stratification by Size of Invasive Component
   MONDAY MORNING – Poster Number 231

2) Poster Title: Benign Tumefactive Pathology of Voice: Does Anybody Really Know What Kind It Is?
   Poster Session IV – Tuesday Afternoon – Poster Number 162

14. Becky Buell Gutbrod

1) Platform at the Society for Pediatric Pathology, FOXL2 and SOX9 distinguish the lineage of the sex cord stromal cells in gonadoblastomas, Sunday March 21, Afternoon Session 2B#2

2) Poster 149, The IGF-1R/mTOR pathway is differentially activated in tamoxifen associated high grade uterine tumors, Monday morning,

3) Poster 234, Expression of the VEGF/VEGFR2 regulated fatty acid binding protein 4 (FABP4) in endothelial cells of ovarian carcinomas and metastasis, Wednesday morning

4) Online Poster, Fatty acid binding protein 4 (FABP4) Plays an important role in ovarian cancer metastasis.

5) Online Poster, EGFR is overexpressed in uterine carcinomas of patients with antecedent tamoxifen exposure.
15. Lisa Kim

Poster Title: ALH Amyloidosis: An Underrecognized Diagnostic Entity poster # 246
Poster session VI Wed Afternoon

16. Thanh Ha

Poster Title: Morphologic features of breast carcinoma are associated with false negative screening by axillary ultrasound
Poster session II, Monday afternoon, poster number 28

17. Mei Li

2 posters
1) "Carbonic Anhydrase IX (CA9) Is a Reliable Marker for Hemangioblastoma" with Dr. Pytel
2) "Comparing Visual, Morphometric and Biochemical Methods for Estimating Liver Fat Content" with Dr. Hart

18. Saptarshi Mandal

1) Poster Title: Placental Alkaline Phosphatase (PLAP) and Podoplanin (D2-40) Define Two Subtypes of Cells in Lymphangioleiomyomatosis
MONDAY MORNING (March 22) – Poster Number 239

19. Yiqing Chi

Poster #42
Title: Decreased acute cellular rejection in transplanted heart biopsies
Date: Monday morning

20. Marina Ivanovic

Abstract Publication #: 1108
Title: FOXL2 – A Novel Marker for Granulosa Cell Tumors
Poster Session VI – Wednesday Afternoon – Poster Number 170

21. Becca Wolsky

Title: Diagnostic markers in the differentiation of gynecologic and urological clear cell carcinoma.
Poster Session VI
Wednesday Afternoon
Poster Number 175

22. Ben Yan

Poster Title: "Arginase-1: a new immunohistochemical marker of hepatocytes and hepatocellular neoplasms" on Monday afternoon (3/22/09), poster #193.
23. Maria Tretiakova

1) Title: Hypoxia–Inducible Gene 2 (HIG2) Protein – Novel Hypoxia Marker for Primary and Metastatic Renal Cell Carcinoma
   STOWELL–ORBISON/SURGICAL PATHOLOGY/AUTOPSY AWARD POSTER SESSION
   MONDAY MORNING – Poster Number 139

2) Abstract Publication #: 46
   Title: Recurrent Respiratory Papillomatosis with Malignant Transformation in Lungs: A Retrospective Longitudinal HPV Study
   Poster Session V – Wednesday Morning – Poster Number 8

3) Title: Expression Profile of Matrix Metalloproteinases in Primary and Metastatic Breast Cancer
   Poster Session VI – Wednesday Afternoon – Poster Number 6
